

A whole world made of blocks. Dig it, build it, explore it — and stay safe when night falls. Everything here is yours to discover. This guide gives you a head start.

Survival
Collect everything yourself, keep your hearts and food up, and beware of night monsters.

Creative
Every block in the game, you can fly, and nothing can hurt you. Build anything you can imagine.

Difficulty
Start on **Easy**. **Peaceful** means no monsters at all; **Hard** is for heroes.

On a computer

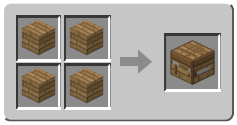

W A S D	Walk (mouse to look)
Space	Jump · tap twice in Creative to fly
Ctrl / Shift	Run / sneak (you can't fall off edges)
Hold left click	Dig a block or hit a creature
Right click	Place a block, open, use, eat (hold)
E · 1 – 9	Your bag · choose from the hotbar
Esc	Pause · **Save and Quit**

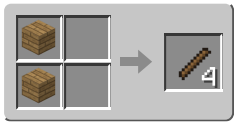

On an iPad

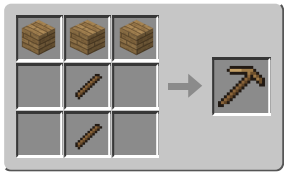

Left thumb	Joystick to walk (push far to run)
Drag	Look around
Tap	Place a block, open, use, hit
Touch and hold	Dig; hold with food to eat
Jump button	Jump · double-tap in Creative to fly
Bag button	Your inventory and crafting
Pause	Options and **Save and Quit**

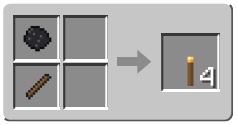

Your first day

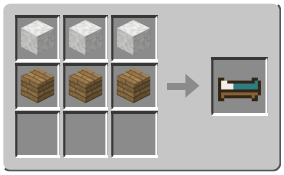

1. **Punch a tree** (hold) until the log pops out, then walk over it. Get about 6.
2. Open your bag: logs make **planks**; 4 planks make a **crafting table**. Put it down and use it.
3. Make **sticks** and a **wooden pickaxe**. Dig stone for cobblestone, then make a **stone** pickaxe and sword.
4. Find **coal** (black spots in the rock). Coal on top of a stick makes 4 **torches**.
5. Before dark, build a little house with a door and torches inside. Monsters only appear in the dark.
6. Sheep give wool: 3 wool on 3 planks make a **bed**. Sleep in it at night to skip to morning.

Crafting table

Sticks

Pickaxe

Torches

Bed

> **Hearts and food:** hearts are your health, drumsticks your hunger. Eat to stay strong — cooked food is best (a **furnace** is 8 cobblestone in a ring). If you get beaten, you wake up at your bed (or where you started): go back quickly for the things you dropped!

2 Friends and foes

A pig, a cow, a Shambler, a chicken, a sheep and a Bone Archer.

Two tamed Fellhounds with their blue collars.

Animals

Pigs, cows, sheep, chickens, goats (they leap!) and rabbits. They give you food, leather, wool and feathers.

A hound of your own

Fellhounds live in packs in forests and snowy pine woods. Give one **raw meat** (it may take a few tries) and it gets a blue collar and becomes yours. It follows you, fights for you, and sits when you tell it to. **Never hit a wild one** — the whole pack comes after you!

Villagers

Every villager has a name and a job: farmer, smith, mason, scribe, fletcher or mapmaker. They trade with **amber**: sell them wheat, coal or stone, then buy tools, armour and treasure maps. Be kind and they give you better prices. Villages grow with children, meet round the **bell** at midday, and an iron **Sentinel** guards them.

Night monsters

Shambler	Walks straight at you. Burns up in sunlight.
Bone Archer	Stays back and shoots arrows. Burns in sunlight.
Crawler	Climbs walls! Leaves you alone in bright light, unless you hit it.
Dustwalker	Lives in deserts. Its hits make you hungry.

Some nights monsters **raid a village**. Help the villagers win and you become **Hero of the Village**.

How to win a fight

- A **sword** (stone, then iron) and a **bow** with arrows.
- Iron **armour**: smelt iron ore in a furnace.
- **Torches everywhere**: monsters can't appear where it's bright.
- A full tummy heals your hearts. Take food!
- Too many? Run home and shut the door.

A goat, a rabbit, a Crawler and a Dustwalker.

A village Sentinel keeping watch.

3 Things to discover

Farming
Dig dirt near water with a hoe and plant seeds. Wheat grows; 3 wheat make bread. Bone meal makes things grow fast.

Treasure maps
The Mapmaker sells maps to dungeons, ruins and other villages. Hold the map and follow the arrow to the X!

Boats and fishing
5 planks make a boat. Cast a fishing rod, watch the ripples come closer, then reel in when the fish bites.

Runes
Rune Shards come from deep rune ore. At a Rune Table they give your sword or pickaxe magic powers.

Make your home special
Fences, lanterns, ladders, flower pots, paintings, coloured wool from flower dyes, and signs: write your name!

Armour stands
Six sticks and a slab make one. Dress it in armour and give it a sword. Sneak and tap it with an empty hand to swap outfits!

Lava
Deep down the rock glows. Lava burns, so carry a water bucket. Pour water on lava and it turns into black Cinderstone.

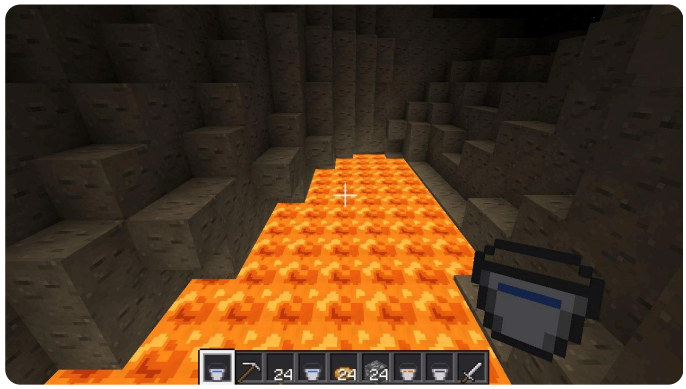

Dungeons
Hidden rooms in the rock with a Monster Cage and treasure chests. Break the cage, then grab the loot!

The village bell
Ring it and everyone runs indoors — and any monsters nearby glow through the walls so you can see them.

Colour your armour
Leather armour and a dye in the crafting grid: a red tunic, a blue cap... Mix two dyes for new colours.

A village. Look for the bell by the well.

A lava lake deep underground.

Explorer's rule: never dig straight down — you might fall into lava or a cave full of monsters. Dig a staircase instead, and always carry torches and a block to plug any hole.

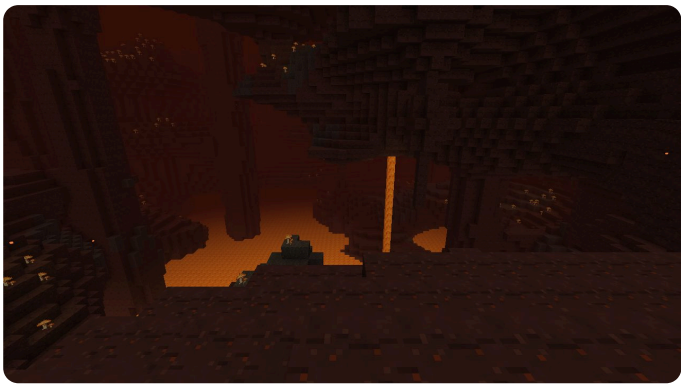

Lost? Build a tall tower of blocks with a torch on top near your home, so you can find it from far away.

4 The Cinderdeep

Far below the world is a second world of fire: giant caves over a sea of lava. You get there through a gate you build yourself.

A lit Deepgate. Stand in the glow to go down.

The Cinderdeep: a lava sea, a lavafall and glowing Glowcaps.

Build a Deepgate

1. Get **8 Cinderstone**: pour water on lava, or craft it from stone, coal and an iron ingot.
2. Lay them in a **ring** on flat ground, with the middle left empty.
3. Use a **torch** on the middle. It lights up!
4. Step down into the glow and stay for **3 seconds**... and down you go (in Creative you can fly just above it). Use the gate down there to come home.

> **Take:** an iron pickaxe, sword, armour, food, lots of blocks and torches. Down there water vanishes, beds don't work and maps don't point. If you fall, you wake up back home.

What's down there

- **Ember Ore** glows in the rock. Ember is the best fuel, makes 8 torches, and Ember Lamps.
- **Fire Opal**, very rare, near the lava sea. You need an iron pickaxe.
- **Glimmerstone** glows on the cave roofs.
- **Ashboars** roam in herds. Leave them alone: hit one and the herd charges and throws you in the air! **Ember Lamps** scare them away. Give two a Glowcap each for a piglet.
- **Cinderlings** leap at you and set you on fire. **Smoulderers** are tall and hooded and throw burning embers.
- **Ember Shrines**: ruined halls with a Monster Cage and treasure chests.
- **Cinder Charm** (string, a Fire Opal, 3 iron) in your off-hand slot (F): fire hurts you half as much.

A herd of Ashboars with a piglet. Their glowing seams show in the dark.

A Smoulderer and a Cinderling. Fight them with a sword or a bow.

5 The Starhollow

High above the world, islands float among the stars — and a dragon called the Hollowdrake guards them.

Four tall towers with Storm Bells, and the Hollowdrake in its shield.

The Hollowdrake flying past. The bar shows its health.

Get there

1. Get **8 Glimmerstone** from the Cinderdeep's glowing cave roofs.
2. Make a **Star Lens**: 2 Rune Shards, 2 Glimmer Dust and a Fire Opal.
3. Lay the Glimmerstone in a **ring** on the ground (like a Deepgate) and use the Star Lens on the middle.
4. Stand in the violet glow for **3 seconds**... and up you go!

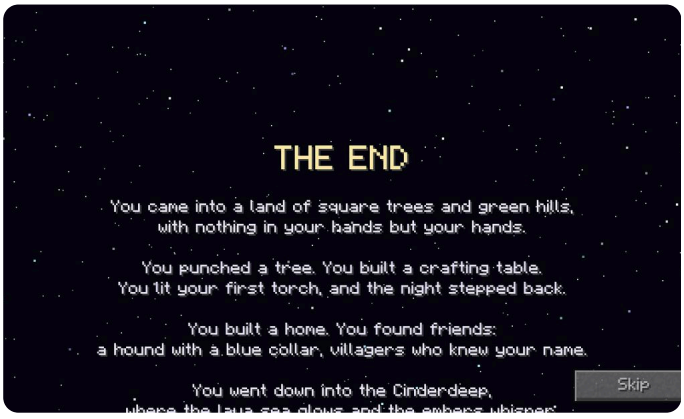

> **Fell off an island?** Don't worry: the stars catch you and carry you home, with all your things.

Beat the Hollowdrake

1. Climb all **four towers** and ring the **Storm Bell** on each. That breaks its shield.
2. Shoot it with arrows, and hit it with your sword when it swoops down or rests in the middle.
3. Win **8 Star Scales**. 6 and a Drift Silk make **Starwings**: jump, then jump again in the air to glide!
4. Step into the gate in the middle to see **THE END**.

A Storm Bell on top of a tower. Climb the ladder and tap it.

THE END: words drift up over the stars.

6 Snow Day and Pets

Snowball fights, John the snowman, Sledgy the sledge — and Tim, a fox cub of your very own. (You chose their names!)

Whooshing down a snowy hill on a Sledgy.

A tamed Tim called Pip, sitting and staying.

Snow day

- Break a **Snow Block** for 4 snowballs. Tap (right-click) to **throw**!
- **John the snowman:** put one Snow Block on another and use **Coal** on it. It throws snowballs at monsters. Tap it: “follow me” or “stay here”.
- **Sledgy the sledge:** sticks and planks. Put it on the snow, tap it to sit on, push the joystick and **zoom downhill**. Tap Sneak to get off.

Pets and farm animals

- **Tim the fox cub:** they are shy, so **sneak** up and give one a **fish**. Your pet brings you little presents!
- **Name Tag** (string + leather): tap a pet and type its name.
- Give two cows or sheep **wheat** (pigs: a carrot, chickens: seeds) and they have a **baby**.
- Use a **dye** on a sheep to colour it. **Shears** (2 iron) give you its wool.

Adventure checklist

- [ ] Chop your first tree
- [ ] Make a crafting table
- [ ] Make a stone pickaxe
- [ ] Survive your first night
- [ ] Sleep in a bed
- [ ] Tame a Fellhound
- [ ] Trade with a villager
- [ ] Grow wheat and bake bread
- [ ] Ring a village bell
- [ ] Follow a treasure map
- [ ] Sail a boat
- [ ] Catch a fish
- [ ] Put a rune on your sword
- [ ] Make Cinderstone (water on lava)
- [ ] Open a dungeon chest
- [ ] Break a Monster Cage
- [ ] Go through a Deepgate
- [ ] Mine Ember Ore
- [ ] Get an Ashboar piglet
- [ ] Find a Fire Opal
- [ ] Make a Cinder Charm
- [ ] Dress an armour stand
- [ ] Go up to the Starhollow
- [ ] Ring all 4 Storm Bells
- [ ] Beat the Hollowdrake
- [ ] Glide on Starwings
- [ ] Have a snowball fight
- [ ] Build a John
- [ ] Ride a Sledgy down a hill
- [ ] Tame a Tim
- [ ] Give a pet a name
- [ ] Get a baby animal
- [ ] Dye a sheep pink

Collect all 54 **Advancements** (Esc or Pause › Advancements). Always **Save and Quit** when you finish. Grown-ups: the title screen (bottom left) should say 2.3 or newer; when an update is waiting the game menu shows **Save and Update**.
